

Hello!

My name is Kinga, and I am a photographer. I specialize in natural portraits of people, families, and children.

I'm addicted to good light, natural smiles, and those spontaneous moments that somehow always end up being everyone's favorite photos. My goal is to make each session a pleasant, relaxed, and fun experience for you, where you can enjoy yourselves and feel comfortable while I capture your most authentic moments.

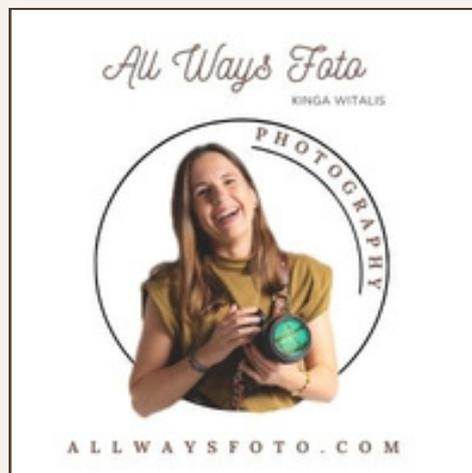

In addition to classic family and portrait sessions, I also work in children's fashion photography. I create portfolios (books) for agencies and collaborate with clothing brands, producing both photos and short videos that showcase the clothing in natural movement and real light.

I work with both children who are just starting in modeling and those who already have experience. I always make sure the session is fun and positive for them, and that the final result – natural and professional photos – opens new opportunities.

I also do photojournalistic sessions, focusing on emotions and the most important moments, creating a warm and coherent narrative of your memories.

Where can we have the session?

Each session can be different, so before we meet, I always ask about your needs and ideas, and then I suggest the best solution. I tailor the location, atmosphere, and style to you, the children's ages, or the character of the photos. I mainly work in Madrid and its surroundings, but I also love to travel and conduct sessions in other parts of Spain and around the world.

Depending on your preferences, you can choose from the following options:

- **Studio session in central Madrid** - I work in a studio in central Madrid (c. de Ercilla, Arganzuela), ideal for classic, timeless photos as well as creative, editorial-style shoots. The studio is also perfect for children's fashion sessions or portfolio (book) photos for agencies.
- **Outdoor session** - A natural option, perfect for children to move and play, using natural light and enjoying a unique atmosphere at any time of the year.
- **At-home session** - In the comfort of your own home, where you feel most relaxed and safe. This session focuses on capturing everyday moments, real life, and authentic emotions in a familiar environment.
- **Session at a location of your choice** - I can come to your preferred location, whether it's your home, residential area, or workplace, and set up a mini studio with my own equipment.

What is the session like and how to prepare?

- During the session, I focus on freedom and fun: there's much more play than posing.
- I help you with positioning and give guidance on what to do, but I don't expect stiff poses.
- Thanks to this approach, everyone feels natural, and the photos capture genuine smiles and joy.
- I always take many photos, from which you later choose your favorites.
- Before the session, I send a mini guide, and if you have any questions or doubts about clothing or preparation, I'm always available to help.
